## **Press information**

### **New methodology for corporate issues**

Creditreform Rating AG reviews its methods and tools regularly and continues to develop them. Against this backdrop, a new methodology for corporate issues had been developed and will be valid from 15<sup>th</sup> February 2017. Due to regulations, the ratings that are affected by the new rating methodology will be assigned the supplement (watch) and will be subsequently reviewed. The results of the reviews are not known yet.
